

YEPERENYE YEYE AKWEKWE FRIDAY 28TH AUGUST 2015

Look at Year 1

The year 1 class have been doing amazing work this term and have coped very well with the change of teacher while Miss Sally has taken time to see family. Literacy and Math have been the main focus for the past 6 weeks with the children practicing their sounds and their writing everyday. It is a pleasure to see how well the children have improved in their writing skills in such a short amount of time.

Math games are a favorite with the kids, especially when their buddies come along to help them. Different groups of children are at different levels of their numeracy ability however, they all have fun when practicing their numbers and counting. We count to 100 everyday together!

Year 1 love to spend time with other classes and we had a special treat last week going to preschool to make colour volcano's using bi-carb soda, vinegar and food dye. The kids found it very interesting to see how two colours mixed together could make a whole new colour.

It is sad that the term is nearly over as it has gone way to quickly however the children are looking forward to next term when they can learn new things and see their old teacher again.

This Weeks Awards

Child Care

khloe Ronberg- For being a good helper

Kohen Miller Brown- Participating well during cooking lesson

Pre-School

Kayden- Louise Liddle— Being creative during role-playing
