

# YEPERENYE YEYE AKWEKWE

Friday 24th July 2015

Volume 3, Issue 2

## What's Been Happening in Pre-School

The Preschoolers are adjusting happily into term three and they are settling in quite well. We welcome Mrs. Lyn McCullagh, our interim principal as well as the new students who have joined us this term. We also welcome into our class the students from St. Mary's college who are assisting in our classroom.

The Preschoolers are developing their learning skills as they engage in different learning activities. They are also developing their fine -motor skills, creativity skills as well as their gross- motor skills. They have been participating in class role-plays where they have displayed their creativity and imaginative skills as well as oral-language skills. Children are learning through fun and Play based activities. The gateways program is being used in Preschool and the children are developing their gross motor skills as well as oral language as they participate in various gross-motor activities. It is encouraging to see children engaging in social pretend play.

We would also like to acknowledge parents who are spending time with their children in the class as they help them to settle in and to participate in the class activities. Veronica Haines has accepted to be involved in creating cultural awareness in the class and also modelling good behaviour among the children in a cultural way. Thanks to the entire Preschool staff for assisting in educating our Yipirinya Preschoolers.

From Rosemary Swao, Kelly Adams and Anitha Boyle.
